

The process for collecting faculty escort information for graduate students receiving doctoral degrees at the Commencement Ceremony is decentralized. Academic unit personnel already authorized to enter graduate student data are responsible for entering faculty escort information in GIMS.

Please recall that all doctoral degree candidate escorts must be a member of the UF Faculty.

Faculty escort information for doctoral commencement participants may be entered through the deadline. After this deadline, the UF President's Office will mine the information. If you have changes or additional escort data after the deadline has elapsed, please provide updated information to the President's Office by contacting Stephanie McBride at stephmcbride@aa.ufl.edu or 392-5277. The President's Office sends instructions via email to individual faculty escorts concerning the details of the ceremony.

We greatly appreciate your cooperation in gathering this information.

INSTRUCTIONS:

1. Log into GIMS.
2. Click the "Commencement Data" Menu Selection under the Department Data Menu Heading.

3. Click on the tab named "Faculty Escorts".

6. The "Comments" field is optional and is included for entering helpful information for the President's Office pertaining to the faculty escort. For example, "Dr. A is escorting degree candidate Z also".

8. Click "Cancel" below the record to stop the current edit.
9. Click "Clear Commencement Escort" below the record to delete the existing escort and comment information.
